**FARM NAME:**

**ADDRESS:**

**TEL:**

**Person responsible for this plan:**

**Updated on:**

Please note that this form is intended for use as a **guidance document** to help you identify and collate useful information to plan for emergency wildfire incidents on or near your farm. This is not a fire safety risk assessment report. Fire safety risk assessments are legally required for all farm buildings and associated land defined as relevant under Part 3 of the Fire (Scotland) Act 2005. Further information on fire safety law can be found on the Scottish Government website or by contacting your local Environmental Health Department.

## Key Contacts

Name:

Name:

Position/Role:

Position/Role:

Tel:

Tel:

Local Fire and Rescue Service Tel:

### 1. On-Farm Contacts

Contact details for individuals who need to be informed of a fire on the farm immediately or who may be at risk - e.g., farm workers, property occupiers, neighbours. Always contact emergency services first.

Name	Contact Number	Position/Role	Notes

### 2. Emergency Assembly Points

Assembly points should be clearly marked and communicated to individuals on farm. Assembly points should be as far away from potential hazards as possible.

Location (Latitude, Longitude)	Grid Reference	What3Words*	Site Name and Description
EXAMPLE 394729, 807605	NJ947076	river.remedy.kite	Behind farmhouse at the top tree

\*What3Words is an app used by the emergency services to facilitate fast, accurate geolocation for more information visit: [About us | what3words](#)

### 3. Access Points

All access points to the farm should be considered, allowing alternative routes to be found if fire is causing disruption. Note if access points are suitable for all vehicles or only four-wheel drive vehicles.

Access Point	Grid Reference	What3Words	Notes & Description

### 4. Contact Details for Neighbouring Properties

All access points to the farm should be considered, allowing alternative routes to be found if fire is causing disruption. Note if access points are suitable for all vehicles or only four-wheel drive vehicles.

Farm/Business Contact	Person/Role	Location	Contact Number

### 5. Water Supplies

List significant water sources - e.g., wells, rivers, hydrants, ponds. Any obstructions or access limitations should be highlighted in the notes section.

Type of Supply	Name	Grid Ref./What3Words	Notes

### 8. Stock Housing Exits

Building Location/Map Number	Location of Exits	Stock Typically Housed

### 9. Susceptible Crops

Crop	Acres Standing/Tonnes Stored + Location	Crop Type
Arable Grains		
Straw Crops		
Hay		
Silage		
Woodlands		
Other		

## 12. Crop/Feeding/Bedding Storage

Type	Time Period Typically Stored For	Storage/Location

## 13. Asbestos/Other Hazardous Materials

- Is asbestos present on or near the farm?
- If so, where?

Remember firefighters need to know as much information as possible.

## 14. Fire Extinguishers

- Are there fire extinguishers on farm?
- Where are they located?

If relevant, attach a copy of your current fire extinguisher plan.

## 15. Priority Areas

Which areas of the farm would you recommend prioritising if possible – consider the greatest risks and their possible consequences. Note important farm hazards and other sensitive areas such as SSSIs, scheduled monuments, etc.

- 1.
- 2.
- 3.
- 4.
- 5.

Remember to mark these areas/infrastructure on your Farm Risk and Resource Map.

**16. Vet/Animal Welfare Contacts**

Name	Role/Location	Contact

**17. Other Useful Contacts**

Name	Role/Location	Contact

**18. Other Considerations** - note here if you have insurance in place that would cover the cost of helicopter support.
