## Cross compliance checklist GAEC 5 - Minimum land management reflecting site specific conditions to limit erosion

National Advice Hub T: 0300 323 0161 E: advice@fas.scot W: www.fas.scot

The aim of GAEC 5 rules is to protect soil against erosion in certain situations.

Answer each question below with a yes, no or n/a to help check if you have adhered to the rules. If the rules are applicable to you, and you are compliant, your answers to the questions should be yes.

- Have you ensured that the following livestock activities are <u>not</u> causing erosion of the soil at the banks of water courses, watering points and feeding areas:
  - Overgrazing?
  - Heavy poaching?

Picture above: Erosion of the bank of a water course by cattle

- If agronomic or weather conditions prevent a subsequent crop or cover crop from being sown have you
  put in place appropriate measures to limit soil erosion? For example:
  - Grubbing?
  - Sediment traps?
  - Sediment fences?
