No Pesticide on EFA – Legumes in 2018

SRDP FARM ADVISORY SERVICE

The image shows two products: a bag of Birds Eye Garden Peas and a can of Heinz Baked Beans. The bag is green and white with a red Birds Eye logo and text including 'Garden Peas', 'Deliciously tender', and 'Lovingly grown, perfect taste'. The can is blue and white with the Heinz logo and text including 'HEINZ BEANZ', 'Baked beans in a deliciously rich tomato sauce', and '1 of your 5 a day'.

The bottom of the slide features three logos: the European Union flag with the text 'The European Agricultural Fund for Rural Development Europe Investing in Rural Areas', the SAC logo with 'SAC' and 'SPECIAL ADVISORY CENTRE', and the Scottish Government logo with 'Scottish Government Rìghdhalas na h-Alba gov.scot'.

EFA CC No Pesticide from date of harvest of nurse crop

SRDP FARM ADVISORY SERVICE

The image is a close-up photograph of a nurse crop, showing a mix of green grass and golden-brown cereal stalks, likely barley or wheat, used for pest control.

The bottom of the slide features three logos: the European Union flag with the text 'The European Agricultural Fund for Rural Development Europe Investing in Rural Areas', the SAC logo with 'SAC' and 'SPECIAL ADVISORY CENTRE', and the Scottish Government logo with 'Scottish Government Rìghdhalas na h-Alba gov.scot'.

EFA in 2018

Greening Update - Hedges

- Must be at least 20m in length
- Must be on or within 5m of arable land (or contiguous with a claimed EFA option).
- Can be any height but must not be more than 3m wide from the centre of the hedge.
- Each linear metre is worth 0.001ha. – so 1000m = 1ha.
- If the hedge forms a boundary between two parcels then it will count as half.

Greening Update - Hedges

- Hedge shared between two farmers

In this example the hedge is to be claimed as an EFA hedge by both farmer A and farmer B. As the field boundary runs along the centre of the hedge,

Greening Update - Hedges

- As the field boundary stops on the fence only Farmer A can claim and will get 100%.

Agro - Forestry

- Must have been BPS eligible arable land in 2015
- Must have been planted under a FGS scheme since 2015 under an agreed agro forestry scheme
- Counts as 1:1

Protozoa	1	21. <i>Adalia decempunctata</i> : 10-spot Ladybird	1
Bacteria	0	22. <i>Adoxa moschatellina</i> : Moschatel	16
Algae	7	23. <i>Aegagropilus linnaei</i>	3

Tips: you can fine-tune the location of the area by dragging the red marker icon.

Preferred WBC Structure & Location

Species	Preferred WBC Structure & Location
Grey Partridge	Thick canopy such as kale in open locations
Skylark	Open canopy such as sparse cereal away from boundary features
House Sparrow	Close to farm buildings
Tree Sparrow	Next to thick hedges, small woodlands or scattered trees
Bullfinch	Next to tall hedges or woodland
Linnet	Next to hedges or areas of scrub
Yellowhammer	Next to hedges
Reed Bunting	Next to hedges, close to ditches
